

Working Together So Children Receive the Right Services

Central New York Health Home Network has partnered with hospitals, physicians, local government agencies and other community providers of the North Country region to improve the health of the community and the care available for the children in Jefferson, Lewis, and St. Lawrence Counties.

Through this Partnership the CNYHHN Can Help

Get the information and confidence to be an informed partner in making decisions to improve your child's health.

Understand the options available for care so you can choose wisely.

Provide resources and education to help a child get healthy and stay healthy.

Who Can Receive Services?

To meet eligibility, the child must have two or more chronic conditions, such as but not limited to:

- Alcohol or substance abuse
- Mental health condition
- Cardiovascular disease (ex: Diabetes)
- Respiratory disease (ex: Asthma)
- Eating disorders
- Cystic fibrosis

The following chronic conditions apply:

- HIV/AIDS
- Complex trauma
- SED (severe emotional disturbance)

For a complete list of conditions, visit <http://www.health.ny.gov>

If your child meets the eligibility criteria and is in need of care management services, they can be enrolled into the Health Home Program.

What is a Health Home?

A “Health Home” is not a place. It is a group of health care and service providers working together to make sure that the child gets the care and services they need to stay healthy – at the right time in the right amounts.

What is the Health Home Goal?

The goal of the Health Home is to make sure children with Medicaid who have complex physical and/or behavioral health conditions get access to the care and services they need in order to be healthy.

The Health Home partners with other children’s service agencies that provide Care Management to enrolled children.

A dedicated Care Manager is assigned to the child and is responsible for coordinating all of their health services.

The Care Manager can help the child and family understand their chronic condition, manage their symptoms and ensure all treatment partners remain involved with the child’s care.

Benefits of Home Health Care

It’s not surprising if you may feel overwhelmed or confused.

It is very difficult to navigate through the many types of services that may be available to your child.

Until now, you may have had extreme difficulty getting access to the services your child needs or you may have had a hard time getting appointments.

You may not know what to expect from services providers and may be hesitant to ask the questions you need to in order to better understand your child’s condition.

If you’ve faced a crisis with your child or child’s condition and have not had someone to call for assistance, you now have someone who is able to connect you to the proper services.

Health Home Care Management can Help!
